AEG strongly supports the strengthening of this policy, especially the explicit encouragement of new native tree planting and woodland creation to support biodiversity, in Section A of the policy.

We also strongly support the addition of the presumption in favour of retention and enhancement of existing tree, woodland and hedgerow cover in Section B, together with stronger guidance to developers in Section C & D.

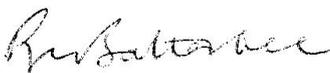

Sufficient resources must be made available to ensure that the Council can monitor implementation and establishment of new planting, together with its ongoing commitment to rigorously enforce TPOs.

Please continue your comments on the next page.
